## Profile

Hardworking and detail-oriented junior programmer with a strong ability to learn quickly and adapt to new challenges. Careful and precise in all tasks, with a natural curiosity and drive to solve problems independently. Works well in a team, actively participates in meetings, and enjoys sharing knowledge with others. Handles stressful situations calmly and approaches every new challenge with enthusiasm and a positive attitude.

## Programming languages

FE related HTML CSS/SCSS JavaScript

BE related PHP Python C# Java

## Technologies

FE related ReactJs jQuery Twig Bootstrap Selenium

BE related Symfony Django MySQL PostgreSQL Wordpress

## Tools & Other

PhpStorm PyCharm WCAG Figma Git composer / pip / npm

Aseprite API Windows Linux Google cloud

## Experience

### Logonet Fullstack developer

📅 July 2022 - March 2023

Symfony ReactJs jQuery MySQL WCAG Wordpress Figma

- Creating, designing and maintaining websites, based on CMS.
- Contacting with client through email, phone and online calls.
- Maintaining CMS, bugfixing, new functionalities, improving UI / UX.
- Improving development process.
- Developing portals and BIP's for local polish authority offices.

## Projects

### Eventful

Django ReactJs PostgreSQL SASS

Eventful is a web service for creating, managing and participating in various events.

Allows users to arrange event schedule and points of interests.

Improves user experience of attending events such as: concerts, meetings, or conferences. Currently still in development.
